### Terms of Use:

You may sell finished items made with this pattern. You may not sell or distribute the pattern or instructions in their digital or printed form. If your friends or family would like to have a copy, please refer them to <https://www.etsy.com/shop/NeedlepointersCom> to purchase a copy of the PDF pattern for their individual use.

The purchaser has permission to have the pattern printed for their own use.

### Block Size:

Block will finish at 8" x 8" when sewn into a quilt project.

Unfinished block is 8 ½" x 8 ½"

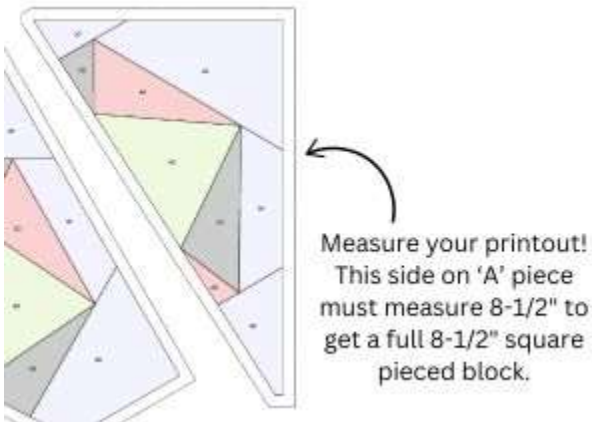

### Printing Tips:

Print foundation paper piecing pattern pages on a lightweight paper. I like "Papers For Foundation Piecing" by "That Patchwork Place" available from Amazon.com. This is a lightweight paper and it's easy to remove after piecing is completed.

Print pattern pages in **Portrait** and select "**Actual Size**" or **100% scale**.

Confirm size by measuring the long straight edge of piece 'A'. This edge should **measure 8 1/2"**. If it does not measure 8-1/2" on your printout, check your print options.

### Sewing Order:

After paper piecing the 3 sections, sew them together in this order.

**B -> C**

**A -> BC**

### Fabric Colors:

The colors in this design were selected to show better on a printout. To get the 3D look, I recommend using four shades of a color for the dice. Use a contrasting color for the background.

Select shades of one fabric color to get 3D look. The colors in the pattern match to:

**Yellow - Very Light**

**Green - Light**

**Red - Medium**

**Grey/Black - Dark**

**Blue/Purple – Background**

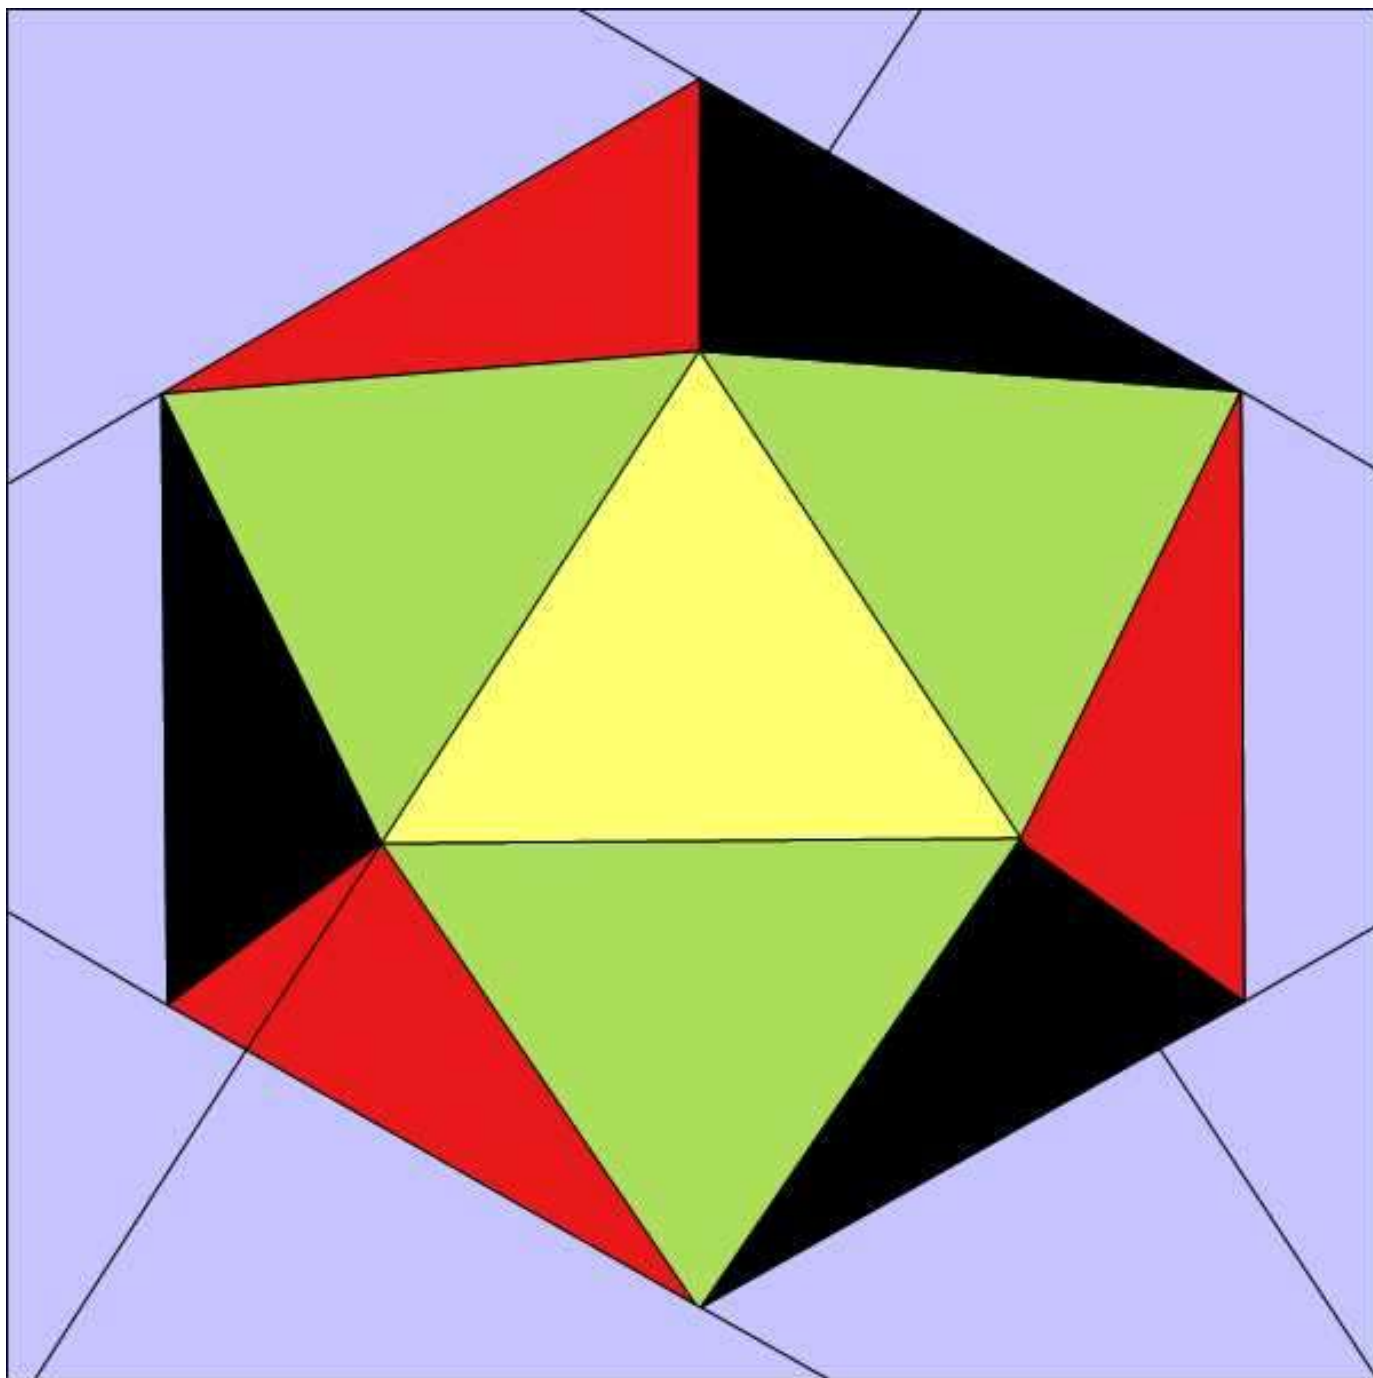

### **Sewing Tips:**

- Need a Paper Foundation Piecing tutorial? Visit our video and tutorial, <https://www.needlepointers.com/main/youtubecontent.aspx?youtubeid=34>
- When sewing the three pieces together, match the seams in the dice more than the edges of the block. This will help the points in the dice match up.
- When sewing the block, leave extra background fabric extending past the end of the seam allowance as you sew. This is just in case your pattern printed a bit smaller. You can trim to 8-1/2" at the end.
- Square up the block to 8 1/2" after sewing.
